- ◇ Microsoft Excel (10 years)
- ◇ Microsoft Powerpoint (10 years)

Jack Bishop

2021 graduate of the university of Hertfordshire's 2D Animation Course with over 5 years of digital design software experience and a variety of customer based work experience. I've worked as an independent artist and in a professional team based environments. My specialities are After Effects and Traditional 2D animation with a passion for graphic fantasy art. I run a small animated youtube channel and create art for D&D characters and fantasy monsters in my free time and outside of my artistic pursuits I will probably be found playing TTRPS, gaming, or going on long walks. I better end this before it sounds too much like a dating profile, but I would be delighted to be a part of your animation team given the chance, so reach out.
